Designated Company Representative	FRANCISCO DOMINGO
Representative Title	CEO
Telephone	+ 58 424 5121080
Email	fdomingo@inv.com.ve

2. NOMINATION INFORMATION	
Nominated by (Name)	
Company / Organization	
Email / Telephone	
Relationship to Nominee	

3. CANDIDATE BIOGRAPHICAL INFORMATION

Brief biography of the company nominated:

INMARVENCO C.A. is a Venezuelan-based subsea and offshore services company with over two decades of experience in subsea construction, marine operations, inspection, and underwater interventions using commercial diving (Air, Mixed Gas, Saturation) and ROV technologies. ISO 9001:2015 and ADCI certified, and a General Member of ADCI, the company operates in strict alignment with international safety and quality standards. INMARVENCO operates an extensive company-owned fleet of specialized vessels and work barges with capacities up to 900 tons and DP2 positioning systems, enabling high-complexity offshore execution. The company maintains strong in-house capabilities for internal pipeline inspection (ILI / Smart Pigs), cable laying, and subsea protection, serving major international operators such as REPSOL-ENI (Cardón IV), CHEVRON, SAIPEM, MAUREL & PROM, and SHELL, with projects executed in Venezuela, Suriname, Aruba, and Nicaragua.

Brief biography of designated company representative:

Senior Executive with over 40 years of leadership in the offshore and subsea industry across the Americas and Asia, beginning in 1980 as a commercial diver (including the deepest dive recorded in Venezuela, 650 ft). CEO of INMARVENCO C.A. since 2010 and Board Member of MCI Group (2022-2025). ADCI Certified Saturation Diving Supervisor (#1557) and NDT Inspector Level III, he held executive roles at LAGOVEN S.A. (PDVSA subsidiary) from 1986 to 1997, including Diving Operations Group Leader and Manager of the Offshore Construction Group, and co-founded Sea Tech de Venezuela C.A. (1997-2010), the first company in Venezuela to use ROV technology for pipeline inspection. He led INMARVENCO's ISO 9001:2015 (2022) and ADCI (2024) certifications and served on the national commissions that updated commercial diving (2022-2023) and ROV (2024-2025) standards with Fondonorma, INEA, and PDVSA. His commitment: advancing ADCI safety standards and strengthening the voice of Latin American contractors.

Nominee Acceptance

I accept the nomination to serve on the ADCI Board of Directors. I have reviewed and understand the duties and responsibilities of Board membership, and I am willing and able to make the time and resource commitment required during the three-year term of office.

Qualities

- Certificado ADC Bell / Saturation Diver Supervisor # 1557
- Air / Mixed Gas / Saturation Diver
- Air / Mixed Gas / Saturation Supervisor
- NDT (UT - MPI) Inspector Level III
- Especialista en procesos de Intervención Submarina con ROV
- Asesor / Consultor de procesos de Intervención Submarina a Empresas

1986 - Evaluation of all diving operations and underwater intervention processes in the national oil industry (Venezuela). Implementation, in 1986, of surface air supply diving systems to replace the autonomous system and Desco Mask used in all contracting companies providing underwater services to Lagoven S.A. to comply with the international standards that regulate this activity.

1987 - Content specialist and implementation leader of the PDVSA commercial diver training program lasting two years (CEPET - CIED - CAT) and re-certification program, with a two-year periodicity, for active and duly certified divers.

1989 - Implementation of surface decompression diving for underwater intervention activities in PDVSA's offshore operating areas and Lake Maracaibo at depths greater than 90 ft.

1990 - Blow Up control of the SLB-54X well, operated by Lagoven S.A., in conjunction with Oceaneering International and Boots & Coots.

2002 - Implementation of ROV tecnology (Deep Ocean Phantom HD2+2) for inspections of underwater pipelines (680 kilometers) in the Lake Maracaibo, Urdaneta Oeste offshore field operated by Shell Venezuela S.A. (2002). The first company in Venezuela to use this technology.

2004 - Coordinate and execute the first underwater tie-in (ø 24" to ø 30") carried out in Venezuela, a project completed for CHEVRON, in the offshore production field LL-652. An Integra tool (Stud tensioners) was mobilized to the country and used in this operation in conjunction with surface "D" diving techniques.

2012 - Achievement of being the Venezuelan company (I.N.V. - INMARVENCO C.A.) selected by SAIPEM AMERICA to support its CASTORO 7 and CASTORO 10 underwater pipe-laying barges in different projects executed in Venezuela.

2017 -Control of a blowout in well B-912 in conjunction with Boots & Coots, Lake Maracaibo, placing a 30-ton double stack BOP 7 meters below the lake bottom in the 7" casing. A 60 ft. diameter by 20 ft. deep trench was excavated at a depth of -90 ft., carrying out 109 dives with Mixed Gas (heliox) Surface "D" .

2021 - Project Developer and Coordinator for the Inspection, with ROV Oceanbotics SRV-8 and a DP2 ROV Support Vessel, of the CARDON IV (REPSOL - ENI) subsea assets in the Perla Field (30 miles Offshore Gulf of Venezuela). The 40-day project was executed by Venezuelan personnel and included the inspection of 3 platforms (Jackets) - 8 kilometers of Ø 14 gas pipelines - 65 kilometers of Ø 30 gas pipelines at depths of up to 70 meters.

2015 - 2024 International projection of I.N.V. - INMARVENCO C.A. developing and executing projects in Suriname, Aruba, and Nicaragua.

2022 -2025 -Assigned by the Board of Directors for the development of new business, establishing strategic alliances with international

Petroleras con operaciones Offshore

- Consultor de Fondonorma e INEA en procesos de intervenciones submarinas, normas y procedimientos.
- Advisor - Content Specialist in Commercial Diving Courses and implementation of standards and procedures.

partners (MAJESTIC OFFSHORE of Malaysia) to provide internal Pipeline Inspection services with Instrumented Tools (Smart Pigs - MFL) to clients such as Chevron and CARDON IV (REPSOL - ENI). 04 runs have been executed for REPSOL - ENI and CHEVRON.

2022 - Lead the ISO 9001:2015 certification process with all of I.N.V.'s human resources - objective achieved. I.N.V. is currently re-certified.

2022 - 2023 - Member of the National Commission for the updating and implementation of world-class norms and standards for Commercial Diving. The commission was formed by Fondonorma, INEA, PDVSA, and specialist advisors and consultants.

2024 - 2025 Member of the National Commission for the updating and implementation of world-class norms and standards for ROV operations. The commission was formed by Fondonorma, INEA, PDVSA, and specialist advisors and consultants.

2024 - Lead the ADCI (Association of Diving Contractors International) I.N.V. certification process, with on-site audits by external auditors, objective achieved

2022 - 2025 - Board of Directors member (MCI - Moschella Catalano Industrias holding).
